

ARE YOU DEMOLISHING OR RENOVATING A STRUCTURE?

What you need to know before heading to the Landfill...

Demolition/Renovation Waste Evaluation Fact Sheet

The following wastes are prohibited from disposal within the Inert Area of the McKenzie County Landfill. This checklist is provided to help generators inspect inert waste loads prior to disposal. **Generators are responsible for removal of these items.** The following is a checklist to evaluate your waste for unacceptable materials. Loads that contain these items will be rejected and removed at the generators cost:
